

# Reduce Noise Save Energy

Stay under 90 dB while reducing air use by 2/3rds.

## OSHA Safety Air Guns

All Guardair Safety Air Guns are designed with nozzles that meet or exceed OSHA STANDARD 1910.242(b) 30 psi requirement.

## WhisperJet® 80WJ

WhisperJet Safety Air Guns deliver powerful cleaning with low-noise operation, thanks to their unique nozzle design. Perfect for noise-sensitive environments, they provide strong thrust while reducing sound levels. Choose the 80WJ or 80 model with extra volume control for an ideal balance of safety, noise reduction, and cleaning performance. Save up to two-thirds on compressed air consumption for lower operating costs and fast payback. Built for durability and OSHA compliance, WhisperJet is the smart solution for safe, efficient industrial cleaning.

- 19 CFM Compressed Air Usage
- 4.4 HP Minimum Compressor Size
- 89 dBA Noise Level
