

GUARDAIR®

It's a Clean Sweep! Introducing the Filter Cleaning Gun

Part Number
900FG024

Extend the life of expensive air filters with the Guardair Filter Cleaning Gun – an essential tool for general maintenance and automotive use.

Powered by standard shop compressed air, the bi-directional, multi-port nozzle delivers a linear spray pattern of compressed air from opposite sides of the nozzle. Perfect for removing impurities from various types of air filters. Effectively cleans radiators and other surfaces.

Key Features

- Easier and more efficient than traditional manual cleaning
- Unique bi-directional design eliminates dangerous "extension whipping"
- Comfortable, thumbswitch-style trigger
- Multiple extension lengths available (12", 24", 36" and 48")
- Lightweight, aluminum construction
- ¼" FNPT inlet

**Multi-port
Nozzle**

**Thumbswitch
Trigger**
