Personnel Cleaning Station

Safe Personnel Cleaning With Compressed Air!

- Proprietary vacuum technology cleans workers quickly and effectively
- Removes dust, powders, and particulates from clothing and skin
- Rugged polyethylene construction

Running off standard shop compressed air, the Personnel Cleaning Station pairs a proprietary, on-demand air-agitator brush attachment with a high-efficiency pneumatic vacuum. Thumb-switch activated, the air-agitator loosens and lifts particles airborne where the vacuum sucks them away safely and effectively. With no motor to burn out, the Personnel Cleaning Station is virtually maintenance-free. Vertical Mounting System (VMS) mounts on any vertical surface, saving valuable factory floor space.
