

Force 5[®] Big Air Guns

The most powerful safety air guns
on the planet.

OSHA Safety Air Guns

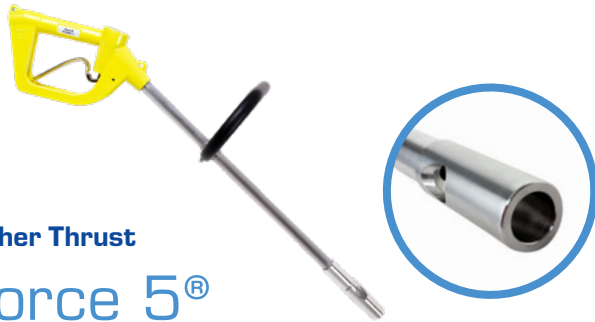

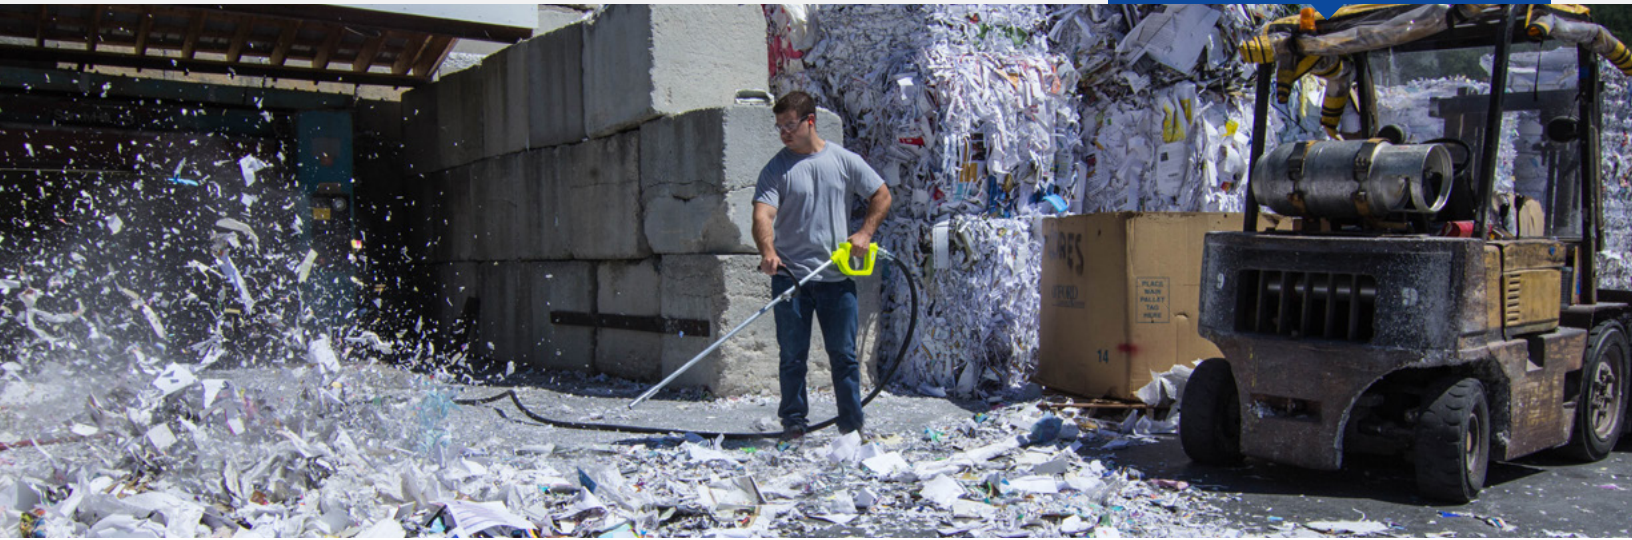

All Guardair Safety Air Guns are designed with nozzles that meet or exceed
OSHA STANDARD 1910.242(b) 30 psi requirement.

Force 5[®] Series

Built for the toughest construction and industrial applications, the Force 5[®] Series delivers unmatched cleaning performance with maximum thrust and reach. Designed for use with tow-behind or large in-plant compressors, these heavy-duty safety air guns replace unsafe “home-made” devices with a reliable, OSHA-compliant solution.

- **Unmatched Power** – Blast away heavy debris with industry-leading output thrust.
- **Safer by Design** – Dead-man trigger ensures operator control, preventing accidents.
- **Durable Construction** – Engineered for harsh environments and daily use.
- **Flexible Options** – Choose from two nozzle types for noise or thrust performance.

Higher Thrust
Force 5®

- Maximum cleaning power
- 13.5 lbs thrust
- 121 dBA
- Ideal for the most demanding jobs

Part Number	Extension Length
F5024AA	24"
F5036AA	36"
F5048AA	48"
F5060AA	60"
F5072AA	72"

Lower Noise
QuietForce®

- Reduced noise, safer for workers
- 7.1 lbs thrust
- 101 dBA
- Balanced performance with quieter operation

Part Number	Extension Length
F5024AQF	24"
F5036AQF	36"
F5048AQF	48"
F5060AQF	60"
F5072AQF	72"

THE PERFECT MATCH

Pair with the right hose.

Part Number: 34X50GP

Get the most out of your Force 5® Big Air Gun with our 3/4" ID x 50' General Purpose Air Hose Assembly. Built tough for industrial use, this hose is engineered to handle high-volume airflow and seamlessly connects to the Force 5's 3/4" FNPT inlet.
