

GUARDAIR®

Syphon Spray System

Syphon Spray System
Part Number: SS2020

Spray Disinfectants and Sanitizing Solutions

Powered by compressed air, the Guardair **Syphon Spray System** is ideal for cleaning benches, tools, machinery and work surfaces with disinfectants and sanitizing solutions. Featuring a 12" Syphon Spray Gun drawing from a 20-gallon drum, the **Syphon Spray System** delivers up to 16 gallons of liquid per hour. Adjustable nozzle tip controls flow and spray pattern. 20-gallon metal drum stores cleaning solutions with a secure lid to avoid spillage while rolling. Drum mounted on maneuverable dolly with push handle. Components suitable for use with common, noncorrosive disinfecting solutions.

Key Features

- 20' syphon hose assembly to reach remote locations
- Push handle dolly assembly with Syphon Spray Gun and hose storage
- Minimum air compressor required: 2HP, 10 CFM
- 3/8" NPT inlet with 1/4" Industrial Interchange plug
